

From 1 March 2017 to 30 June 2017, each Singapore law practice ('SLP') can apply under SmartLaw Assist for a 70% subsidy of the first-year subscription fees of LawNet Premium's Academy Publishing Collection (subject to terms and conditions in the [Application Form](#)).

The subsidies will come from the Education Fund and the maximum amount of subsidies put aside for this scheme is S\$300,000. Applications will be considered on a first-come-first-serve basis.

About the Academy Publishing Collection

The collection includes all the titles from the Academy Publishing's **Law Practice Series (LPS)** and **Monograph Series (MS)** only which are available for subscription on LawNet Premium.

This is not an e-book library subscription, instead, relevant portions of text found in all the LPS and MS titles will show up as search hits when you conduct a search on LawNet, giving you results from case law, legislation and key textbooks in a single search. You will be able to view adequate amounts of the relevant portions of text in each title to help you determine if the material is on point for your research.
